

QUALIFICATION

01 DEC ---

----> 28 FEB

2026 - 2027

Belgian Olympiad in Informatics

Can you draw a continuous loop
that crosses each of the **7 bridges**
exactly once, without ever
retracing your steps?

*The famous Seven Bridges of
Königsberg problem is a notable
puzzle from the 18th century*

**More information about
the Olympiad**

**Think you've found it?
Or is it impossible?**
